

MRINMOY NATH

PRODUCT DESIGN LEADER

 nathmrinmoy001@gmail.com  +91 8722979062  [linkedin.com/in/nathmrinmoy](https://www.linkedin.com/in/nathmrinmoy)

PROFILE

Product design leader with 9+ years of experience across enterprise SaaS, analytics, technical products and AI-native products. Experienced setting design direction across multiple product teams, establishing information architecture and design processes, mentoring designers, interviewing and hiring design talent, and working closely with Product, Engineering and business leaders. Combines customer discovery and product thinking with hands-on design execution, especially in complex enterprise workflows. Led design direction across multiple Whatfix product areas, coordinating work across teams and mentoring designers. Helped scale the Whatfix design organization toward 20+ designers by interviewing incoming designers, including leadership candidates, and participating in design reviews and mentoring. Initiated and led an organization-wide Information Architecture Charter to establish a scalable navigation and content structure across enterprise products. Established reusable UX principles and interaction patterns to improve consistency across product teams. Worked closely with Product, Engineering and Research to align customer needs, product goals, technical constraints and design decisions.

EXPERIENCE

2025-2026

CopilotGTM

CO-FOUNDER, PRODUCT & DESIGN

- Built an AI-native B2B SaaS product from zero to one, owning product design alongside the founding team.
- Led 50+ customer conversations with founders, VP Sales and presales leaders and translated Jobs-to-be-Done into product direction.
- Led the pivot from a presales assistant to an AI-native revenue intelligence platform after customer discovery changed the target persona and product strategy.
- Designed the Buying Committee Intelligence experience to help sales teams understand stakeholder motivations, influence, champions, objections and deal risk.
- Defined information architecture, onboarding, activation milestones and reusable interaction patterns while partnering closely with engineering and AI teams.
- Supported design-partner onboarding, sales demos, investor presentations and early hiring.

2023-2025

Hevo

SENIOR PRODUCT DESIGNER

- Led UX for Observability, simplifying monitoring and debugging workflows for data engineering and analytics teams.
- Contributed to an estimated 40% reduction in debugging time through redesigned observability and diagnostics experiences.
- Designed onboarding and connector experiences for Salesforce, Snowflake, Amazon S3 and Google BigQuery.

2023-2023

Fynley

CO-FOUNDER

- Founded a B2B SaaS product and owned customer discovery, product positioning, UX, prototyping and early market validation.

2019-2023

Whatfix

SENIOR PRODUCT DESIGNER

- Led design direction across multiple Whatfix product areas, coordinating work across teams and mentoring designers.
- Initiated and led the Information Architecture Charter, bringing structure to navigation and content across a growing enterprise product ecosystem.
- Led design reviews, coordinated across teams and influenced prioritization across multiple product workstreams.
- Interviewed most incoming design candidates and participated in leadership hiring, helping grow the organization toward 20+ designers.
- Mentored designers through critiques, reviews and problem-solving, helping raise design quality across teams.
- Designed complex enterprise dashboards, analytics, administration and content workflows with a focus on clarity, usability and scalability.

2017-2019

CGI

UX DESIGNER

- Designed enterprise workflow management and business applications for global clients.

EDUCATION

- Master of Design (M.Des), IIT Guwahati
- B.Tech, Electronics & Communication Engineering, NERIST
